## Judge Mills' Appointment

That the appointment of Chief Justice W. J. Mills of this city to be governor of New Mexico, which was announced last week by President Taft, meets with universal approval throughout New Mexico, is perhaps no better evidenced than by the comments of the press of the territory. The daily and weekly newspapers, both republican and democratic, generally approve the selection just made and comment favorably upon the appointment. The Optic will, from day to day, quote editorials commenting on Judge Mills' appointment that the people may know.

For the territory's interest and not party, we hope that William J. Mills will make New Mexico a clean and conservative chief executive. The territory must be congratulat-

The court overruled the motion, however deciding that the evidence against the woman was strong enough to warrant holding her over under a \$1,500 bond.
